Joseph Schroeder : Gun Digest Handbook of Collectible American Guns before purchasing it in order to gage whether or not it would be worth my time, and all praised Gun Digest Handbook of Collectible American Guns:

0 of 0 people found the following review helpful. Gun values totally inaccurateBy BarftsFirst, let me say the bookseller's service was excellent. However, the content of the book is pretty useless. The values as listed are for the most part understated. An example is the Colt 1911 A1 in excellent condition is listed as worth \$950.00 while the Remington-Rand in the same condition is listed with a value of \$1,200.00. There is no question that a Colt will

demand a premium over the R-R and both, in excellent condition, will demand more than what is list in this book. Another example is the pre-WWII Winchester model 70, in standard calibers, in excellent condition, is valued at \$1,100.00. This price is 30%, at a minimum, below today's market. This book cost less than \$10.00 but is not worth even that low price. Save you money.0 of 0 people found the following review helpful. Four StarsBy CZFair guide to some of the more popular American guns, but could be somewhat expanded.0 of 0 people found the following review helpful. Nice Pictures, But OutdatedBy SeniorThe book has pretty pictures and in the year of production it would have been okay, but now it has little use. Very little information and pretty much a waste unless you like looking at photos. Values shown are greatly outdated.

This unique and easy-to-carry book showcases 275 modern American-made firearms that while not old enough to be considered antique, are definitely collectible. The rifles, shotguns and handguns included in the listings were all manufactured from 1900 through the 1980s, and exhibit the handcrafted fit and finish no longer found today. Among the firearms models featured in the book are: colt 1911 - millions have been produced; savage Model 99 Rifle - various versions remained in production from 1899 until the late 1990s; and, Winchester Model 70 Rifle - more than 2 million produced.
