The breadth of brands covered in Watches International 2000 and the depth of coverage are questionable at best. While most of the information is organized well and presented in a seemingly objective fashion, at times, the focus of this book seemed to be on marketing rather than on the watches themselves. For instance, the section on Bedat appeared to come straight out of a Bedat advertisement. Sections like this beg the question, "Did certain makers contribute generously to the financing of this publication?" Furthermore, some of the makers that have been included seem to have been selected based on their watches' high ticket prices

rather than on the maker's ability to make a superior timepiece. If objective information on fine timepieces is what you are looking for, spend your money on *Wristwatch Annual 2000* by Peter Braun instead.

Now available in English for the international market, an annual on the world's leading watch brands introduces each with an historical overview, highlights the latest innovations, and includes more than 500 full-color illustrations.
